

East of England Neonatal and Paediatric Surgical Sills Day

20th September, 09:15-15:45

Arthur Rankin Hospice, CB22 3FB

Would you like the opportunity to practise some essential skills in a safe simulated environment?

This study day is suitable for those within neonatal or paediatric care in the East of England caring for infants with a surgical condition

Delegates will have the opportunity to hear the latest evidence, ask questions and share relevant experiences from practice. There will also be time to network with others from a range of backgrounds

The cost to attend is £45 and includes all refreshments, and access to additional resources via Bridge our online learning platform. Places are limited so please book early via our booking form at:

<https://www.eooneonatalpccsicnetwork.nhs.uk/events/>

Or for further information contact:

add-tr.eooneonatalodn@nhs.net

Workshops will comprise practical skills and case study based problem solving. Anticipated topics include:

- Stoma Care
- Care of NPA
- Bowel Washouts *or* Care of PEG
- Stabilisation and Transport
- Supporting infants with complex feeding needs
- Post op care for NEC

This event has been sponsored by the following companies through the purchase of exhibition space and/or participation in educational activities
