

Neuroprotection Study Day

14th November 2023,

Virtual

10:00 - 14:00 hrs

SAVE the Date!

This exciting virtual half day study day is aimed at both medical and nursing staff. Providing the opportunity to find out about the latest trials that could potentially impact our future practice such as the Premicool trial – cooling babies at 33+0 –35+6 weeks gestation; the HELIX study —cooling moderate and severe HIE in low and middle income countries and the COMET trial – cooling babies with Mild HIE. There will be a session on the Eaglet trial comparing EEG and aEEG, a parent talk on their neonatal experience with a HIE baby and an interactive section on aEEG seizure detection. Sentec, who is kindly sponsoring our day, will have a short presentation on Balancing brain and lung protection using transcutaneous monitoring

The cost to attend is £20 places can be booked via our booking form at:

<https://www.eoeneonatalpccsicnetwork.nhs.uk/events/>

Or for further information contact: add-tr.eoeneonatalodn@nhs.net

Booking terms and conditions are available on the website
