- It would be wonderful to have a face to face study day next time. I'm not sure if I missed it but I was 100% sure of the agenda until this morning. Couldn't find it in an email or in the details for today's study day on the website. It just made things a bit tricky with the school run times etc, not knowing in advance. Definitely could just have been an oversight on my behalf though. Thank you all for such a brilliant day. It makes me feel very special as an educator that a day is put on just for us
- Great day, good variety of speakers. Will be nice when we can be face to face.
- Maybe running twice a year programme as education is ever changing in neonates and paediatrics
- Quite a lot of non participatory sessions, as educators who probably run SIM already I personally felt the SIM session did not add to my knowledge and I was quite excited about it
